

Phillip Ramos Upholstery Inc. Booth Seating Specifications Sheet

Manufactured by BuiltRight USA-Woodshop Division

Product Overview

BuiltRight USA booth-seating by Phillip Ramos Upholstery is designed and manufactured for commercial hospitality environments. Where durability, comfort, and long-term performance are critical. Each booth is built using higher-quality materials and proven construction methods to meet the demands of restaurants, bars, cafés, and other high-traffic applications.

Construction & Materials

Frame Construction

- Constructed using **heavy-duty commercial-grade lumber** and reinforced components.
- Engineered for superior strength, stability, and long service life.
- Designed to withstand daily commercial use and repeated seating loads.
- Superior joinery built to withstand the test of time.

Modular Designs

- Future maintenance built-in to the design to prevent environmental waste when your furniture begins to break down.
- Able to fit in any desired space, through any doorway.
- All shapes and styles are available on our standard platform.

Foam & Comfort Specifications

Seat Bottoms

3" thick commercial-grade high-density foam

- Provides firm, supportive seating while maintaining long-term shape retention.
- Designed to resist premature breakdown and sagging in high-traffic environments.

Seat Backs

Lower-density commercial-grade foam

2" thick commercial-grade foam

- Offers enhanced comfort and ergonomic support.
- Allows for a more relaxed seating feel without compromising durability.

Optional Lumbar Support System

- Available **integrated lumbar support system** built into the seat back.
- Designed to promote improved posture and lower-back support.
- Enhances long-term seating comfort for guests during extended dining periods.
- Ideal for restaurants and hospitality environments prioritizing guest comfort.

Upholstery Compatibility

Compatible with a wide range of commercial vinyls and fabrics upholstery materials selected to meet project-specific durability, maintenance, and aesthetic requirements.

Applications

- At your home
- In your office
- In your breakroom
- Restaurants
- Diners
- Bars & lounges
- Cafés & hospitality spaces

Quality Commitment
